

Annual Meeting of Shareholders

2008

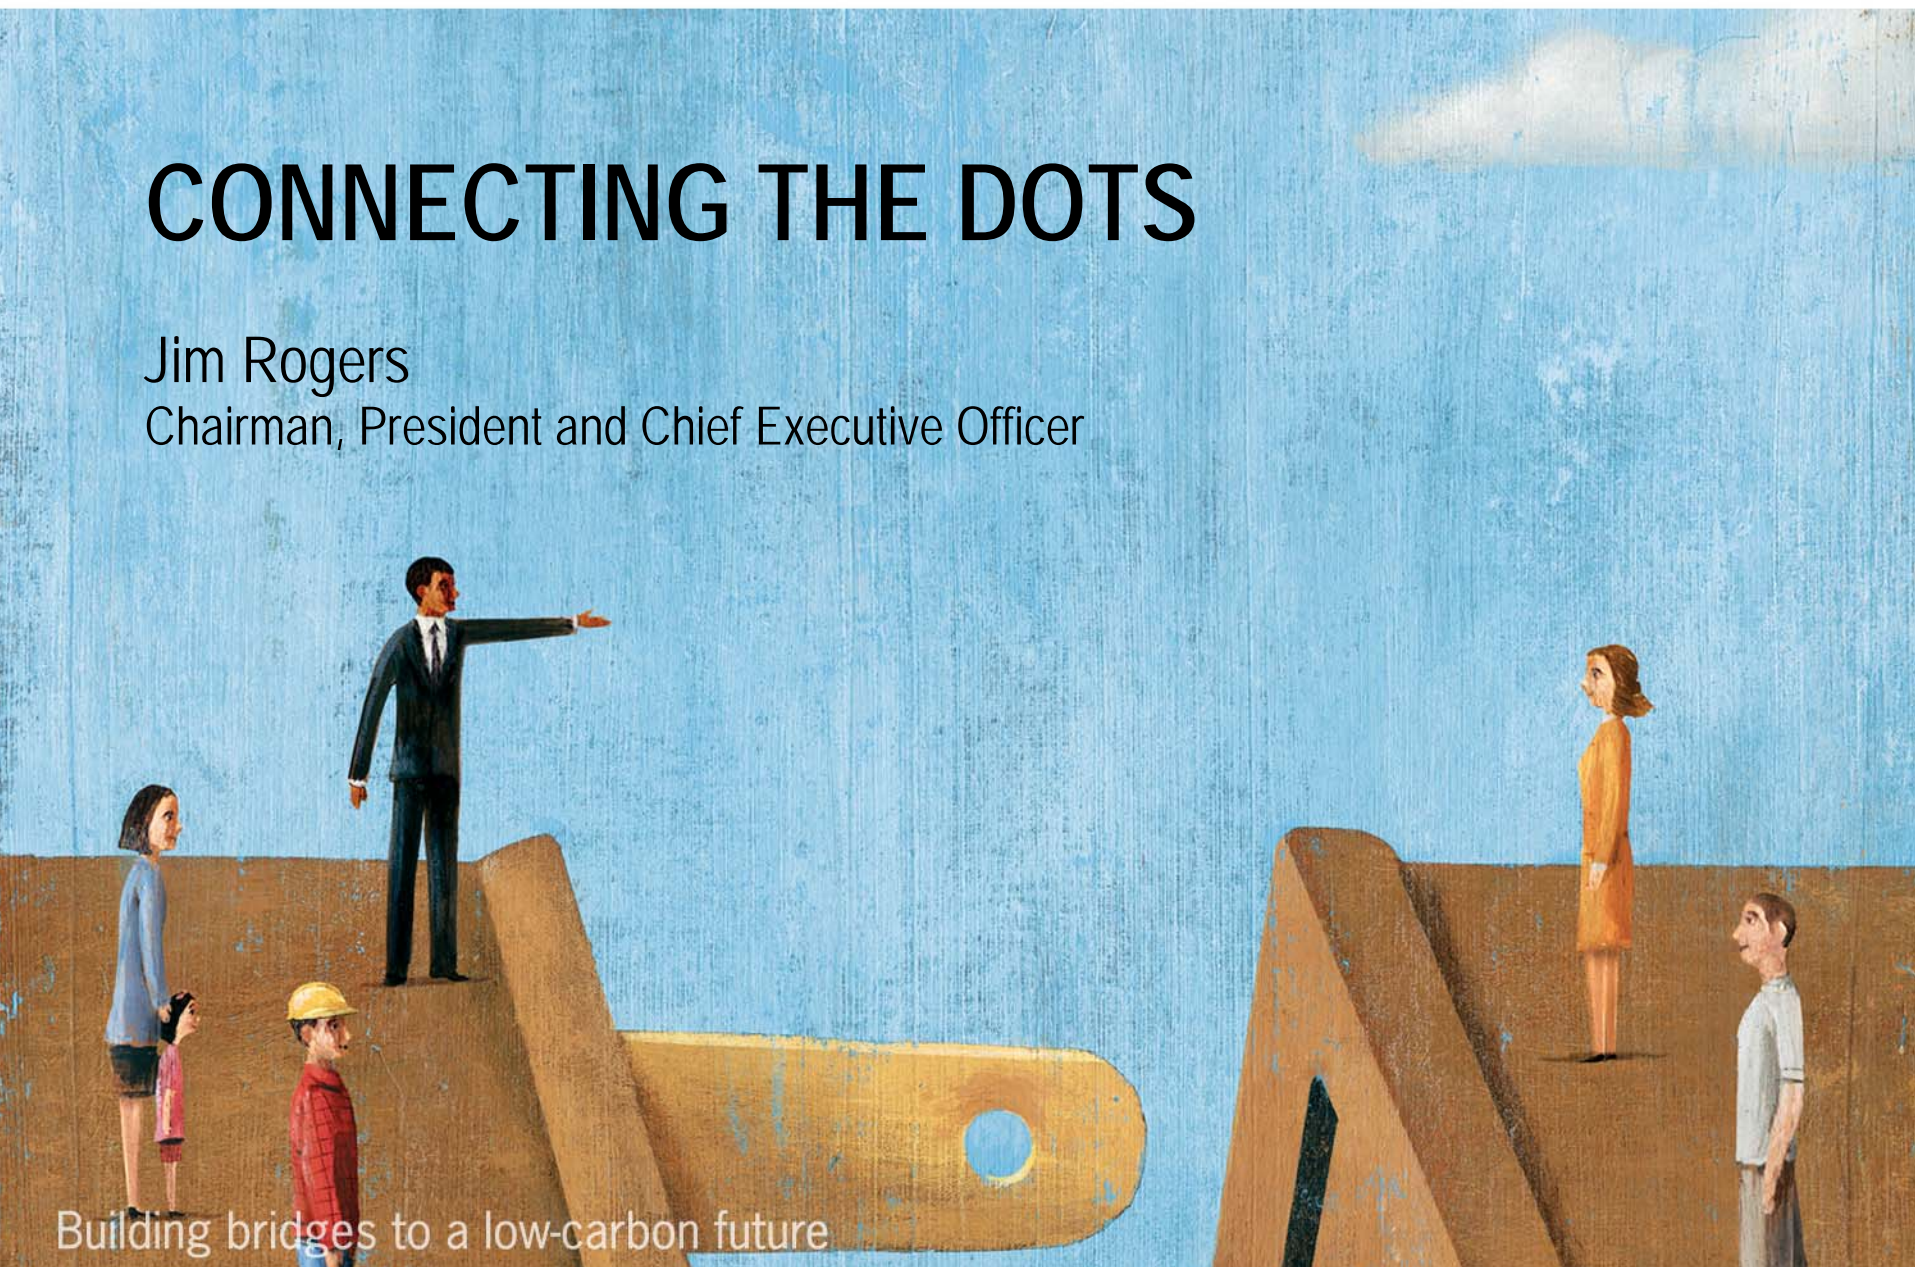

Building bridges to a low-carbon future

CONNECTING THE DOTS

Jim Rogers

Chairman, President and Chief Executive Officer

Building bridges to a low-carbon future

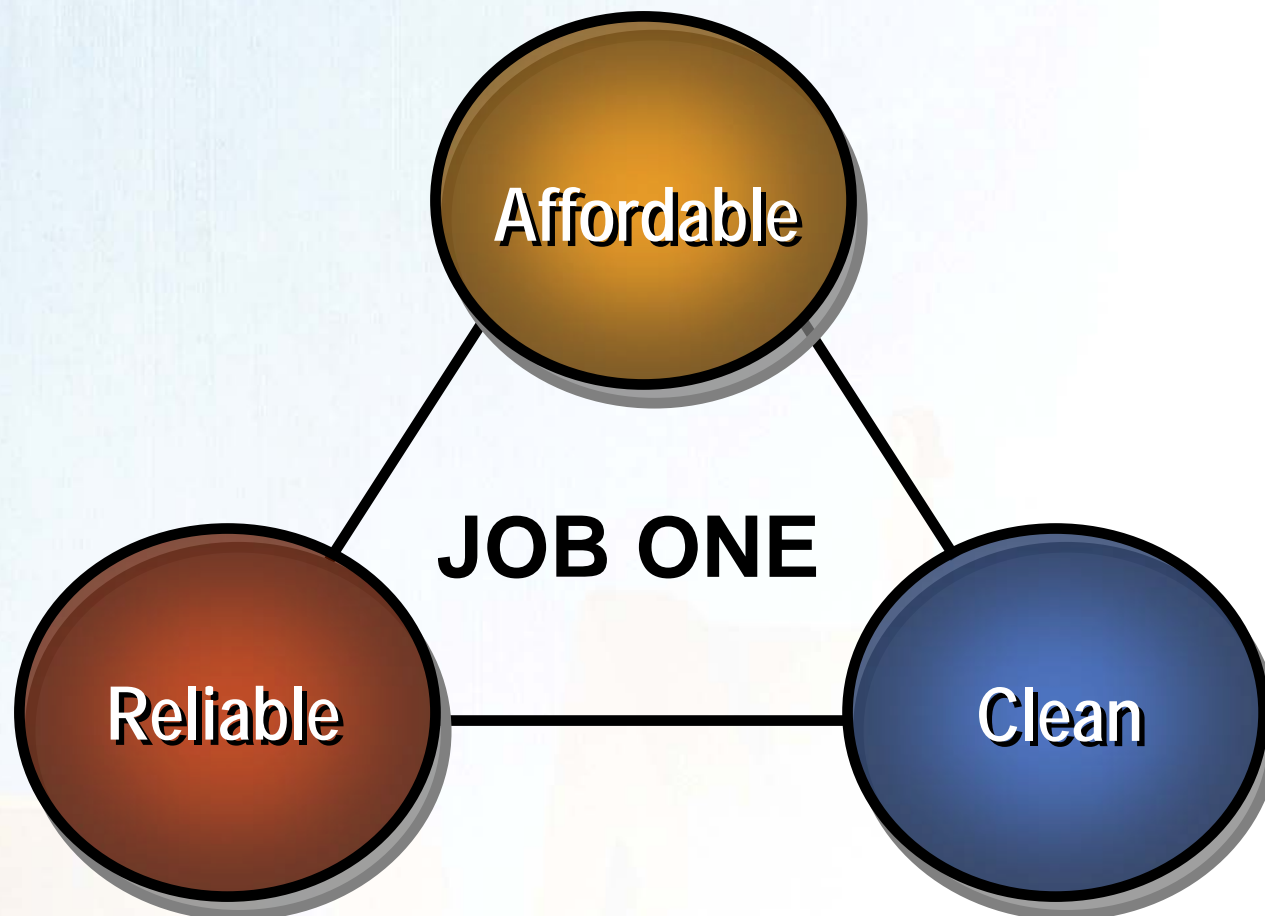

TWO ASPIRATIONS

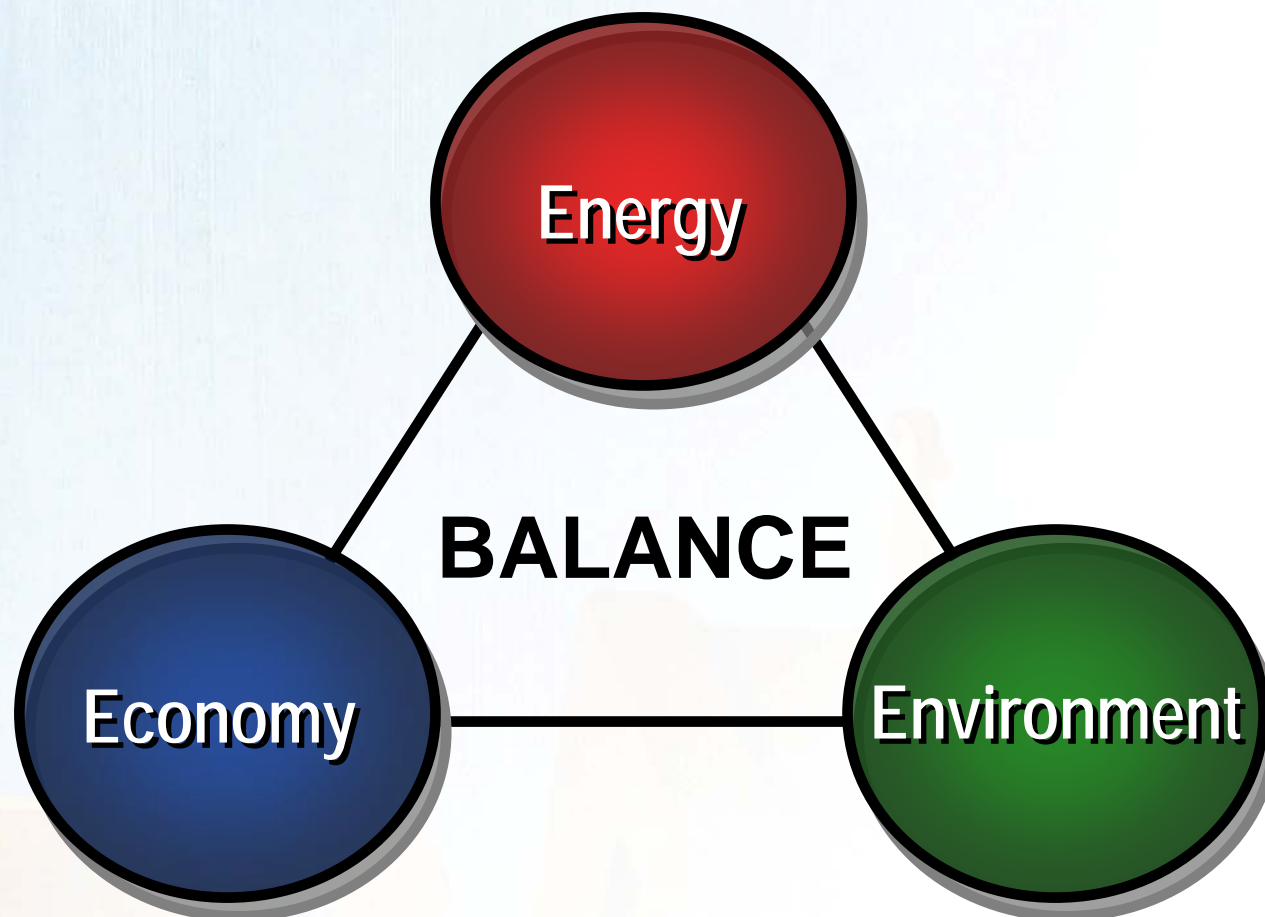

- 
- A faint background image of a businessman in a suit pointing towards the right.
- Decarbonize our generation
 - Help make our communities the most energy efficient in the world

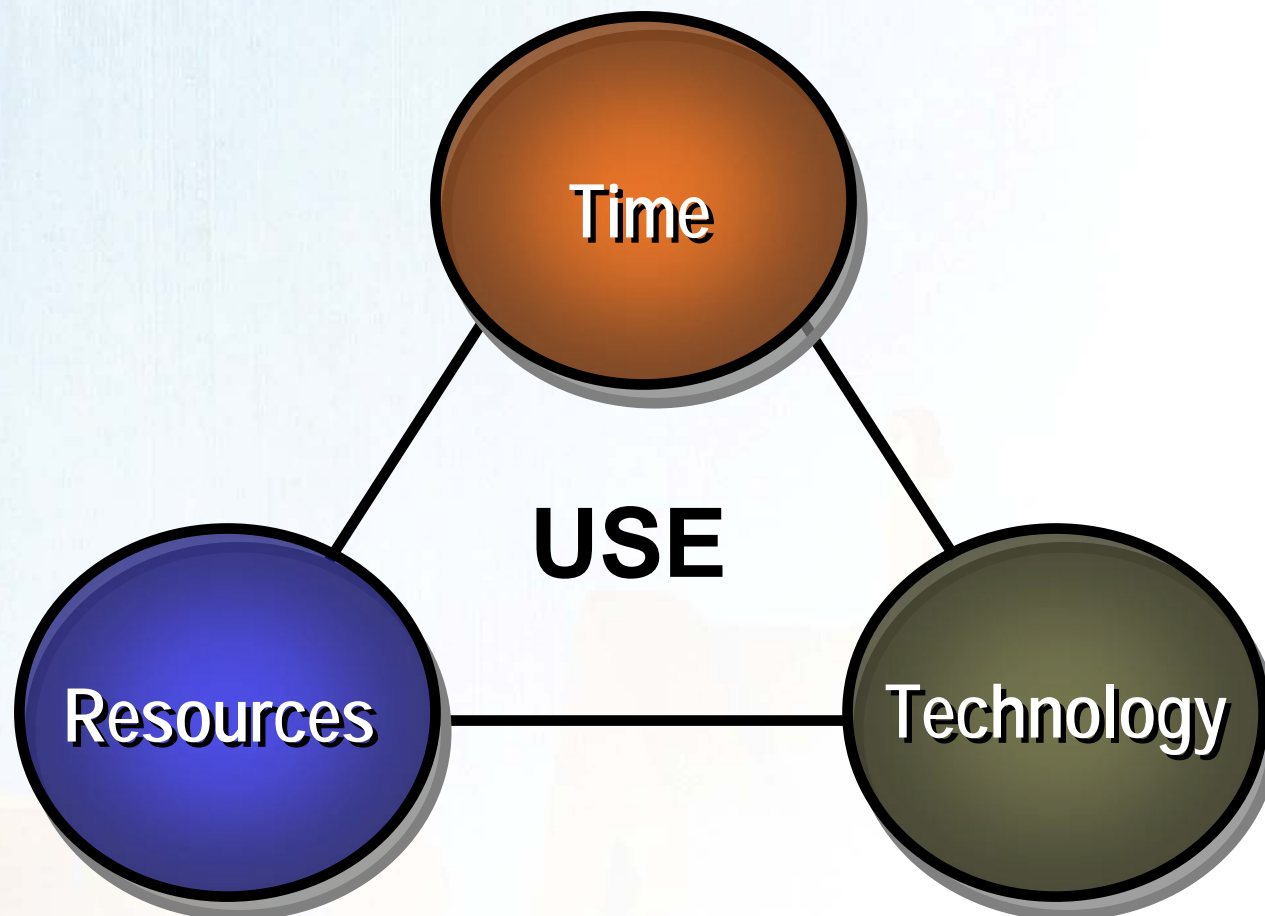

These aspirations are grounded in our commitments to provide our customers with clean, affordable and reliable electric and gas services.

CONNECTING THE DOTS

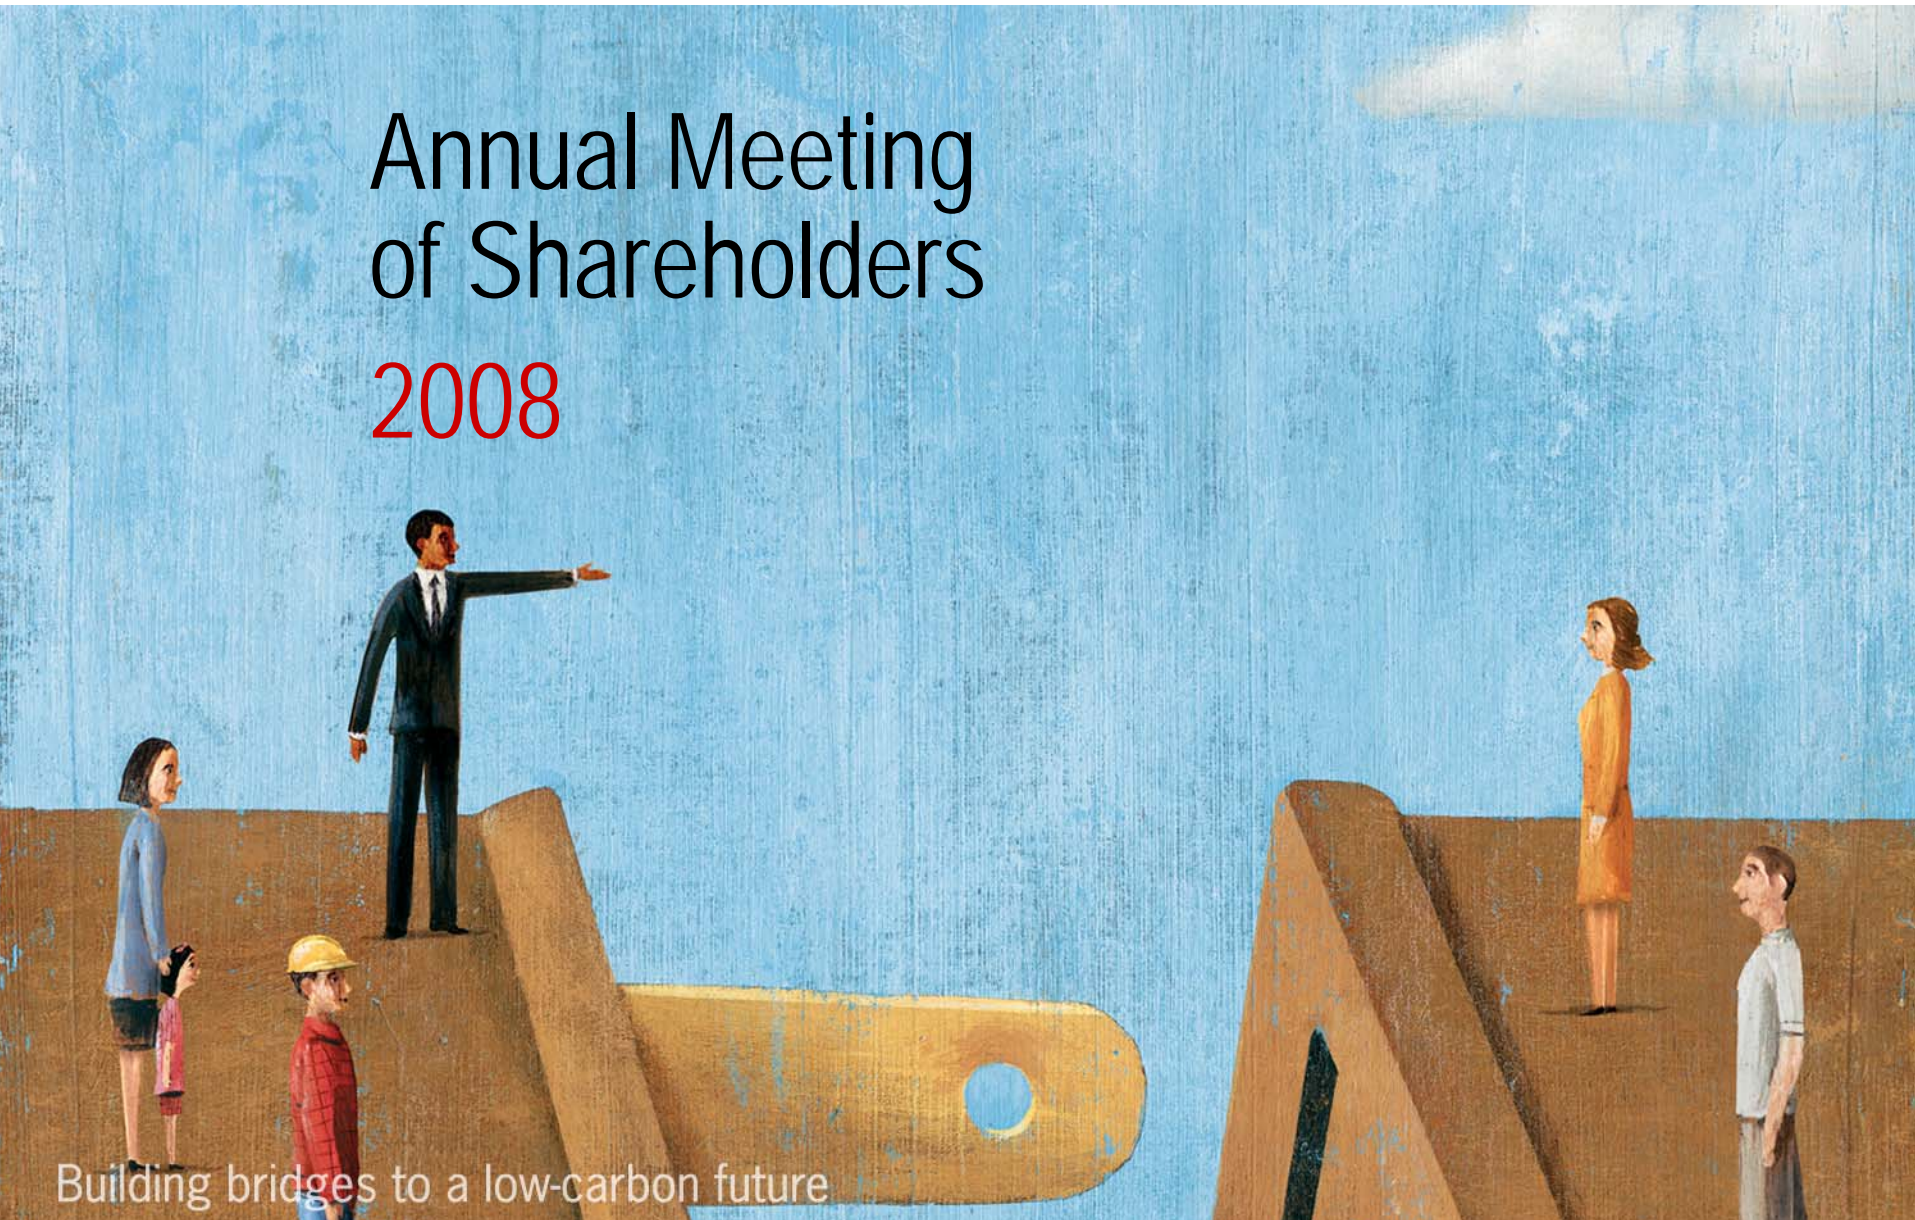

OUR MISSION...

We make people's lives better by providing gas and electric services in a sustainable way. This requires us to constantly look for ways to improve, to grow and to reduce our impact on the environment.

...CONNECTS THE DOTS.
