

One website. A handful of questions. And dozens of ways to save.

Want to cut your energy use? Take a brief home energy survey. Your Personalized Energy Report (PER)[®] will tell you:

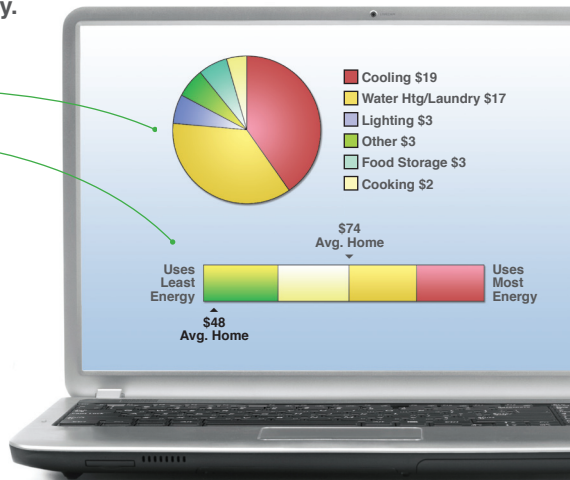

- How your home uses energy
- How your energy use compares
- How you can make adjustments to save

Just visit www.duke-energy.com/PER1 and register for Online Services, complete the survey and view your report. If you're already registered for Online Services, sign in and click the Energy Survey link to complete the survey and view your report.

With the Personalized Energy Report, we're changing the face of energy INFORMATION.

Flip for more money-saving ideas.

With free CFLs, the savings really stack up.

In a season when energy costs can climb, we've got a simple way to save. Compact Fluorescent Light (CFL) bulbs use 75% less power than standard bulbs, and each one can save you more than \$40 over its lifetime.

The even better news? Duke Energy is helping you make the switch for free. Just call **1.800.943.7585** and **select option 1** or visit **duke-energy.com/CFLswitch** for your free CFLs.

Previous participation in a Duke Energy light bulb program may impact the number of CFLs you are eligible to receive.
