

**RATE AL—SCHEDULE FOR AREA
 LIGHTING SERVICE**

Availability

This rate schedule is no longer available after September 1, 2004. Potential lighting customers wanting a lighting system installed and maintained by Company can do so via the Outdoor Lighting Equipment agreement (OLE). Potential customers should contact a Company account representative for further information concerning OLE options. This rate schedule terminates May 1, 2014. Customers currently being provided service under this rate schedule can continue being provided service under this rate schedule until their contract expires or this rate schedule terminates, whichever occurs first.

| 150 Watts | | \$52.23 |
| 400 Watts | | 5.46 |

RATE AL—SCHEDULE FOR AREA LIGHTING SERVICE

"Customer Owned" Systems

The "Customer Owned" Systems are no longer available under this rate schedule. Current "Customer Owned" Systems shall be billed on a monthly basis for each lamp connected to Company's system based upon the estimated average monthly kilowatt-hour consumption for each lamp times \$0.045387 per kilowatt-hour.

Outage Credit

An outage credit per lamp per night shall be determined on the basis of multiplying the rate per lamp per month by 12 and dividing the resulting figure by 365.

Customer or other authorized agent shall make a report of any lamp or lamps which are out of service during proper lighting hours. A copy of such report shall be delivered to Company's local or district office, or to such representative as Company may designate to receive such reports.

Company shall restore any lamp or lamps to service before the proper hour for lighting on the same day as reported if the report of lamp outage is received before the hour of 12 o'clock noon, or Company shall restore any lamp or lamps to service before the proper hour for lighting on the next succeeding day if the report of lamp outage is received after the hour of 12 o'clock noon. In the event of the failure to restore any lamp or lamps to service as hereinbefore provided, after receipt of the report hereinbefore provided for, Customer shall, for each such lamp outage, receive a deduction for the outage credit from the payment for area lighting service for the current month. Such deductions for outage credit shall constitute the only liability that Company assumes or shall have because of the failure of any lamp or lamps to operate during lighting hours, and Company shall not be liable either to Customer or to any third party or parties for any claims for damages directly or indirectly attributable to such lamp outage.

An outage credit does not apply to "Customer Owned" systems.

For Other Area Lighting Service

When a Customer hereunder requests area lighting service requiring facilities not listed above, Customer has the option of furnishing, providing, installing, owning, operating and maintaining such area lighting system and taking service under Rate Schedule UOLS.

Ownership of System - Area Service Lines

For Company owned area lighting systems, Company will furnish, provide, install, own, operate and maintain the necessary facilities for furnishing area lighting service to Customer. Provided, however, it shall be Customer's responsibility to provide any necessary trenching in concrete or asphalt and the suitable repair thereof, i.e., sidewalks, streets, alleyways, etc., required for the construction of an underground area lighting system.

For "Customer Owned" systems, Company will furnish, provide, install, own, operate and maintain the necessary facilities for furnishing electric service to the "Customer Owned" system. Provided, however, it shall be Customer's responsibility to furnish, provide, install, own, operate and maintain such "Customer Owned" system.

RATE AL—SCHEDULE FOR AREA LIGHTING SERVICE

Ownership of System - Area Service Lines (contd.)

Company shall erect the service lines necessary to supply electric energy to the said area lighting system within the limits of the public streets and highways or on private property as mutually agreed upon by Company and Customer. Customer shall assist Company, if necessary, in obtaining adequate written easements covering permission to install and maintain any service lines which it may be desirable to install upon private property.

Company shall not be required to pay for obtaining permission to trim or retrim trees where such trees interfere with any service lines or wires of Company used for supplying electric energy to the lighting system. Customer shall assist Company, if necessary, in obtaining permission to trim trees where Company is unable to obtain such permission through its own best efforts.

Lighting Hours

The lighting hours for the area lighting system shall be on an "all night" schedule which provides that lamps are to be lighted from approximately one-half (1/2) hour after sunset until approximately one-half (1/2) hour before sunrise each day in the year, approximately 4,000 hours per annum.

Maintenance of Lighting System

Company will repair and/or replace and maintain all facilities owned by Company, including lamps and glassware, which may be necessary to provide continuous operation of the area lighting system. Company is not responsible for maintaining "Customer Owned" systems.

Changes in Lamp Location

Company will change the location of any lamp or lamps constituting a part of the Company owned area lighting system which are, or may be, installed and/or operated under this schedule. Any such change in lamp location will be made only upon written order from Customer. The actual cost and expense of making each such change in lamp location shall be borne by Customer.

Additional Lamps

The installation of an additional lamp or lamps to such Company owned area lighting system and the connecting to and/or furnishing of electric area energy to such additional lamp or lamps shall be added to the original contract between Customer and Company for such area lighting system at a rate per lamp per month as specified in this tariff.

Payments for Service

Bills for area lighting service as supplied under this schedule will be submitted by Company to Customer monthly.

Contract for Service

Customer seeking service under this schedule for a Company owned area lighting system shall make and enter into a contract with Company for an initial term of ten (10) years, and successive terms of one (1) year. If Customer terminates service under this rate schedule prior to the expiration of the initial term of the contract, Customer shall pay to Company the original installation cost of such area lighting system less accumulated depreciation plus removal cost less any salvage value.

**RATE AL—SCHEDULE FOR AREA
LIGHTING SERVICE**

Special Terms and Conditions

1. Upon this rate schedule's termination, any remaining customers will be offered maintenance, on an annual basis, under an OLE agreement and energy under rate UOLS.
2. Customers currently being served under this rate schedule may request, prior to its termination, Company to install a new lighting system. Company will install a new lighting system under an OLE agreement when the customers contractual obligations under this rate schedule have been met.
3. Customers may request Company to remove the lighting system and replace it with their own. Company will honor such request when the customer fulfills their remaining financial responsibilities contained in their contract.
