

**RATE MOLS METERED OUTDOOR
LIGHTING ELECTRIC SERVICE**

Availability

Available for an outdoor lighting system (System) to any Customer that requests such electric service from Company and is in Company service area and can be adequately provided by Company. The System can be Customer owned or Company owned. The Customer owned System must meet the connection requirements as stated in the General Terms and Conditions, Section 11, Customer's Installation. This service applies only to outdoor lighting systems that operate during the dusk-to-dawn time period.

Character of Service

This service is for electric energy only, no other service(s) to the System are provided for under this rate.

Company will provide metered service exclusively for an outdoor lighting system to Customer for either a Customer-owned or Company-owned System. Customer shall be billed based upon the metered monthly kilowatt-hour consumption plus a monthly connection charge for each metered point in the System according to the monthly rates specified in the Rate section below.

Rate*

Primary Connection Charge.....	\$75.00	per month
Secondary Connection Charge.....	\$ 9.40	per month
For all kWh supplied per month	\$0.032436	per kWh

Ownership of System Service Lines

Company will provide, install, own, operate and maintain the necessary facilities for furnishing electric service to the System defined in the agreement. The Customer will be required to pay either an estimated "aid-in-construction" or a "line extension deposit" when an overhead secondary service drop from an existing, adjacent, overhead secondary conductor is not available or inadequate to serve the System or if underground service and/or service lines are required.

Company shall erect the service lines necessary to supply electric energy to the System within the limits of the public streets and highways or on private property as mutually agreed upon by Company and Customer. Customer shall assist Company, if necessary, in obtaining adequate written easements covering permission to install and maintain any service lines required to serve the System.

Company shall not be required to pay for obtaining permission to trim or retrim trees where such trees interfere with lighting output or with service lines or wires of Company used for supplying electric energy to the System. Customer shall assist Company, if necessary, in obtaining permission to trim trees where Company is unable to obtain such permission through it's own best efforts.

Lighting Hours

The metered System will be operated automatically by either individual photoelectric controllers or System controller(s) set to operate on either dusk-to-dawn lighting levels or on pre-set timers for any hours between dusk-to-dawn. Annual estimated operating hours set for dusk-to-dawn levels will be based on regional National Weather Bureau hours for sunrise and sunset times. Dusk-to-dawn lighting typically turns on and off approximately one-half (1/2) hour before sunset and one-half (1/2) hour after sunrise, which is approximately 4000 hours annually.

LIGHTING ELECTRIC SERVICE**

Payments for Service

Bills for lighting service as supplied under this schedule will be submitted by Company to Customer monthly.

Reconnection Charge

When service has been turned off by company for non-payment of bills, a reconnection charge must be paid by Customer before such service is reconnected. (See Section 12 of General Terms and Conditions for Electric Service).

When service has been disconnected at the Customer's request, a charge may be made by the Company for reconnection of service for each connection point in the System for the same Customer.
