

STANDARD CONTRACT RIDER NO. 59

URBAN REDEVELOPMENT RIDER

AVAILABILITY

Applicable, until December 31, 2012, to new customers locating in an existing building of 25,000 square feet or more, which has been unoccupied and/or remained dormant for a period of two years or more, as determined by the Company. The new customer load must be a minimum of 500 kW demand at one delivery point. In addition, the requested service necessary to serve the new load must not result in additional investment in distribution or transmission facilities by the Company, excepting that minor alterations in the service supplied that can be accomplished feasibly and economically may be allowed. This Rider will apply only to customers served under Rate HLF – Schedule for High Load Factor Service.

This Rider is not available for renewal of service following interruptions such as equipment failure, temporary plant shutdown, strike, or economic conditions. This Rider is also not available for load shifted from one establishment to another in the Company's service area. However, if a change of ownership occurs after the customer enters into a Service Agreement under this Rider, the successor customer may be allowed to fulfill the balance of the Service Agreement under this Rider.

CHARACTER OF SERVICE

The service provided shall be 60Hz alternating current provided at the Company's standard distribution or transmission voltage.

NET MONTHLY BILLING

The customer shall comply with all terms of the standard Rate HLF under which the customer takes service excepting that the customer's maximum load charge (demand charge) for the new load shall be reduced by sixty (60) percent for a period of 12 months. The customer will pay the full amount of the energy charges, kVAr charges, connection charges, and riders so indicated. The customer may request an effective date of the Service Agreement that is no later than twelve (12) months after Company's approval of the Service Agreement with the customer. All subsequent billings shall be at the appropriate full standard service tariff rate.

TERMS AND CONDITIONS

The customer shall enter into a Service Agreement with the Company that shall specify, among other things, the voltage at which the customer will be served, the amount and nature of the new load and the basis under which the customer will qualify for this Rider. The customer must also affirm that this Rider was a factor in the customer's decision to locate the new load in the Company's service area.

Following the effective date of the Service Agreement, the customer must maintain a minimum demand in accordance with the Service Agreement and maintain a monthly average of 300 hours use for the twelve (12) month incentive period. Failure to do so will result in the customer's Service Agreement being terminated.

The Company is not obligated to extend, expand or rearrange its facilities if it determines that existing distribution/transmission facilities are of adequate capacity to serve the customer's load.

The supplying of, and billing for, service and all conditions applying thereto, are subject to the jurisdiction of the Indiana Utility Regulatory Commission, and to the Company's General Terms and Conditions currently in effect, as filed with the Indiana Utility Regulatory Commission.
