

## SECTION II - SUPPLYING AND TAKING OF SERVICE

### 1. Character of Service

The Company by its present franchise requirements has agreed to furnish gas of the kind and quality from which its supply is procured. Said gas may be supplemented with other gases provided their quality is equivalent to the gas supplied by the Company's suppliers.

### 2. Supplying Service

Service is supplied under and pursuant to these GAS SERVICE REGULATIONS and any modifications or additions thereto lawfully made and approved by the Public Utilities Commission of Ohio. Nothing contained in the Company's tariffs shall relieve the Company of its duties and obligations under all applicable Federal and State gas pipeline safety laws and regulations.

Service is supplied under a given rate schedule at such points of delivery as are adjacent to the Company facilities which are, in the Company's judgment, adequate and suitable as to capacity and pressure, to supply such service; otherwise, special agreements between the customer and the Company may be required. Should the gas requirements of the customer change, as to capacity or use, the Company may require that the service be supplied from a different facility if the original facility is or becomes inadequate and unsuitable for its intended purpose. If special agreements between the customer and the Company are required, gas service will not be supplied until the agreements are executed by the customer and the Company.

The availability of service under this Tariff, P.U.C.O. Gas No. 18, to customers who have elected to relieve the Company of its obligation to provide commodity service under the Company's regulated GCR system supply shall be subject to the rules, regulations, and orders of the Public Utilities Commission of Ohio, including, without limitations, those contained within Case No. 85-800-GA-UNC, as may be modified from time to time.

Service will not be supplied to any premises if, at the time of application for service, the applicant is indebted to Company for service previously supplied at the same or other premises until payment of such indebtedness shall have been made. Unpaid balances of previously rendered Final Bills may be transferred and included on the initial or subsequent bill for a like service account. Such transferred Final Bills, if unpaid, will be a part of the past due balance of the transferee account and subject to the Company's collection and disconnection procedures which are governed by Chapter 4901:1-18 of the Ohio Administrative Code. The transfer of final bills is limited to like service, i.e., residential to residential, commercial to commercial, gas to gas, electric to electric, and combination to combination. The unpaid balances for electric and gas service in a combination account shall remain separate. The transfer of unpaid balances from a combination account to a transferee combination account is limited to like service, i.e., electric to electric and gas to gas. Any transfer of gas, electric or combination accounts shall not affect the residential customer's right to elect and maintain an extended payment plan for gas, electric or combination service under Rule 4901:1-18-10 of the Ohio Administrative Code.

Filed pursuant to an Order dated May 28, 2008 in Case No. 07-589-GA-AIR before the Public Utilities Commission of Ohio.

## **SECTION II - SUPPLY AND TAKING OF SERVICE (Contd.)**

Commercial and industrial service will not be supplied or continued to any premises if, at the time of application for service, the applicant is merely acting as an agent of a present or former customer who is indebted to the Company for service previously supplied at the same or other premises until payment of such indebtedness shall have been made. Commercial or industrial service will not be supplied or continued to any premises where the applicant is a partnership, corporation or limited liability company whose general partner, controlling stockholder or controlling member is a present or former customer who is indebted to the Company for service previously supplied at the same or other premises until payment of such indebtedness shall have been made.

### **3. Information Relative to Service**

Information relative to the installation or relocation of service piping at a given location must be obtained from the Company. This information should be requested well in advance of the time of construction of the project to allow the necessary time required to determine the exact engineering details for the individual customer installation. Such information will be confirmed in writing if requested by the customer.

In any instance where the Company determines that a customer must sign a construction, maintenance, special equipment agreement, or any other written agreement in order to provide for the ongoing and overall service of the customer's gas requirements, all such agreements must be fully executed and received by the Company prior to supplying gas to the customer's system. The providing of gas on a temporary basis has no effect on the above requirements relating to permanent service.

The Company shall comply with the installation requirements of Rule 4901:1-13-05 of the Ohio Administrative Code.

### **4. Continuity of Service**

The Company will make reasonable provisions to supply satisfactory and continuous gas service, but does not guarantee a constant or uninterrupted supply of gas and shall not be liable for any damage or claim of damage attributable to any interruption of service caused by accident or casualty, extraordinary action of the elements, action of any governmental authority, litigation, deficiency of supply or by any cause which the Company could not have reasonably foreseen and made provision against.

### **5. Suspension of Service for Repairs and Changes**

When necessary to make repairs to or changes in the Company's plant, transmission or distribution system, or other property, the Company may, without incurring any liability therefor, suspend service for such periods as may be reasonably necessary and in such manner as not to inconvenience the customer unnecessarily. Customers will be given notice prior to any scheduled maintenance interruption in excess of six (6) hours duration.

Filed pursuant to an Order dated May 28, 2008 in Case No. 07-589-GA-AIR before the Public Utilities Commission of Ohio.

## **SECTION II - SUPPLY AND TAKING OF SERVICE (Contd.)**

### **6. Use of Service**

Service is supplied directly to the customer through the Company's own meter and is to be used by customer only for the purposes specified in and in accordance with the provisions of the applicable rate schedule and these regulations and any service agreement. Service is for the customer's use only and under no circumstances may the customer or the customer's agent or any other individual, association or corporation install meters for the purpose of reselling or otherwise disposing of service supplied by the customer. The customer may install tab meters for the purposes of measuring consumption.

The customer will not install pipes under a street, alley, lane, court or avenue or other public space in order to obtain service for adjacent property through one meter even though such adjacent property is owned by the customer, without the prior written approval of the Company.

In case of unauthorized sale, use, extension or other disposition of service, the Company may discontinue the supplying of service to the customer until such unauthorized act is discontinued and full payment is made for all service supplied or used, billed on the proper classification and rate schedule, and reimbursement in full made to the Company for all extra expenses incurred, including expenses for clerical work, testing, and inspections. Failure of the Company to exercise its right to discontinue the supplying of service in the above situations does not affect its right to resort thereafter to such remedy for the same or any future default or breach by the customer. The Company shall follow the procedures provided in Rule 4901:1-13-09 of the Ohio Administrative Code concerning the disconnection of service for fraudulent practice, tampering, and theft of gas.

### **7. Customer's and Company's Responsibility**

The Company assumes responsibility for the initial installation of the curb-to-meter service, including the riser. The customer assumes responsibility for activities by the customer and customer's agents which cause damage to the Company's equipment, the curb-to-meter service or the riser, and for appliances and apparatus used in conjunction with the customer's piping. The Company assumes responsibility for the repair, replacement and maintenance of the curb-to-meter service, including the riser.

### **8. Right-of-Way**

The customer, without reimbursement, will make or procure conveyance to the Company, right-of-way satisfactory to it across the property owned or controlled by the customer for the Company's lines or extensions thereof necessary or incidental to the supplying of service to the customer, or customers beyond the customer's property when such rights are limited to installations along dedicated streets and roads in the form of Grant or instrument customarily used by the Company for these facilities.

Filed pursuant to an Order dated May 28, 2008 in Case No. 07-589-GA-AIR before the Public Utilities Commission of Ohio.

## SECTION II - SUPPLY AND TAKING OF SERVICE (Contd.)

### 9. Access to Premises

The properly authorized agents of the Company shall at all reasonable hours have the right and privilege to enter the premises of the customer for the purpose of reading meters, testing or inspecting the customer's installation and examining, repairing, replacing, removing, or disconnecting the Company's meters, the curb-to-meter service, or for removing or disconnecting any or all of the Company's equipment, or other Company property, and for all other purposes incident to the supplying of service, and for such purposes the customer authorizes and requests his landlord, if any, to permit such access to the premises. Reasonable hours of access are the daylight hours except for emergencies, where requested by the customer, or with the customer's consent and except for disconnection for nonpayment of bills which hours of access are subject to the provisions under Section VI Paragraph 1, Disconnection for Nonpayment: Residential Customers, of these GAS SERVICE REGULATIONS.

Upon request, the Company's authorized agent shall identify himself/herself, provide Company photo identification, and state the reason for the visit.

If, after the Company has made reasonable efforts to obtain access to the premises for the purpose described above, the customer fails to grant the Company access, the customer denying access shall be deemed in violation of these GAS SERVICE REGULATIONS pursuant to Section I Paragraph 3 herein, Company's Right to Refuse or to Disconnect Service.

Filed pursuant to an Order dated May 28, 2008 in Case No. 07-589-GA-AIR before the Public Utilities Commission of Ohio.
