

# Extended Payment Plans

Duke Energy offers extended payment plans for customers experiencing difficulty paying their winter heating bills.

## Percentage of Income Payment Plan (PIPP)

To qualify for the PIPP program you must:

- have a total household income which is at or below 150% of the federal poverty level
- apply for all energy assistance programs for which you are eligible.

The type of service used at your residence (electric/gas) will determine the amount of your monthly installment. A local Community Action Agency will inform you of your PIPP amount after income verification is complete.

## One-Third Payment Plan

The One-Third Payment Plan, available through April 15, allows you to pay 1/3 your entire balance now, with an agreement to pay the remaining balance in two equal installments along with future bills as they become due.

PRINTED ON RECYCLED PAPER.

## One-Sixth Payment Plan

Duke Energy also offers a six month extended payment plan, which allows you to pay 1/6 of your entire balance now, with an agreement to pay the remaining balance in five equal monthly installments, along with future bills as they become due.

## Six Month Combination Plan

Under this arrangement, you pay 1/6 of the past due amount now, with an agreement to pay the remaining balance in five equal monthly installments, along with your Budget Billing\* amounts as they become due.

\*Budget Billing is a program that enables you to pay a consistent amount each month based on an average of your historical consumption.

## Separation of Service

If you use gas and electricity and both services are in jeopardy of disconnection for nonpayment, you may pay (or arrange to pay) charges attributable to the service you wish to maintain.

## Additional Assistance

The Consumer Credit Counseling Service of Greater Cincinnati (CCCS) can often help individuals having difficulty paying creditors. Contact the CCCS at 800-355-2227 to learn more.
