Electric Meter Options and Charges

Option 1: 15-minute interval meter & modem: - one time charge - \$446.00 (Communication link provided by end-use customer)

Option 1a: 15-minute interval meter & modem - 24 payment installment plan @ \$21.00 per month for first 23 months and \$10.94 on the 24th month: total charge - \$493.94 (Communication link provided by end-use customer)

Option 2: 15-minute interval meter with wireless communication - one time charge - \$446.00. In addition, the end-use customer agrees to pay a \$58.00 monthly site visit charge as described below.

Option 2a: 15 minute interval meter with wireless communication - 24 payment installment plan @ \$21.00 per month for the first 23months and \$10.94 on the 24th month, totaling \$493.94. In addition, the end-use customer agrees to pay a \$58.00 monthly site visit charge as described below.

(Installment plans include 10% interest calculations)

Additional Charges

Site Visit Charge: \$58.00 per site visit

Explanation of Additional Charges

Site Visit Charge: Duke Energy Ohio, Inc. d/b/a The Cincinnati Gas & Electric Company (the Company) plans to install the interval meter no later than 30 days after the effective end-use customer enrollment date (scheduled meter read date when end-use customer begins electric customer choice participation). These charges are applicable if the Company is required to make additional visits to the meter site due to the inability to gain access to the meter location. For Options 1 and 1a, these charges are also assessed if the necessary communication link has not been installed by the interval meter installation date or if the end-use customer-owned communication link is not working properly. If the end-use customer does not install the required communication link for Options 1 or 1a by the first regularly scheduled meter read date following the effective end-use customer enrollment date, the Company will bill the end-use customer a site visit charge for each monthly meter reading until the communication link is installed. The site visit charge will also be assessed monthly when a customer selects either Option 2 or Option 2a to cover the Company's costs for on-site and wireless communication with its meter and for any additional costs associated with wireless technology.

Terms of Agreement

I / We request the Company to provide the services as indicated on this work order and agree to pay the Company for and use same in accordance with the Company's rates, rules, terms, conditions, or regulations applicable to the service, which shall upon date of this request, or at any time during the period service is supplied, be in effect as published in the Company's schedules or future supplements, amendments, or revisions thereof lawfully filed with the Public Utilities Commission of Ohio.

I / We understand that the interval meter installed as a result of this work order may be replaced with a non-interval meter upon my/our return to the Company's Market Based Standard Service Offer. Should this occur, I/we further understand that a new work order is required, with all applicable charges, to participate in the Company's Electric Customer Choice Program in the future.

Agreement to Pay

I / We select electric meter option _____ above and agree to pay upon receipt of invoice, the amount shown by the date indicated on the invoice. I/we also agree to pay any additional site visit charges, if these additional charges are required as part of my/our installation.
