

Make a contribution to the solution.

Help turn renewable resources into electric energy
for as little as **\$4 a month.**

Find out how at www.duke-energy.com/pace

Take part in powering a difference.

Palmetto Clean Energy (PaCE) is a SC non-profit organization promoting the generation of electric energy through environmentally friendly, renewable resources, such as the sun, wind and organic matter, into electric energy. These advances will offset carbon dioxide in the atmosphere and lessen the demand for fossil fuel generation. And you can help.

Every \$4 submitted will add **one block of 100 kilowatt-hours of green energy** to our state's power supply. Over a year, that's the environmental equivalent of planting 150 trees or not driving a car for 74 days!

The dollar amount of your participation will be added to your monthly Duke Energy bill.

All contributions are tax-free and tax-deductible.
