Mark D. Heltzer, P.E

Mr. Heltzer joined DukeNet Communication Services, LLC ("DNCS") in March 2008 where he currently serves as Manager – Engineering and Construction.

Prior to joining DNCS, Mark held the position of Senior Engineer – Substation Engineering for Duke Energy. While at Duke Energy, Mark performed structural analysis and detailing of both steel and concrete structures, shallow foundation designs, and deep foundation designs for electrical substations and transmission towers. Mark was a lead member of the substation siting team which locates, evaluates, and purchases raw land sites for future electrical substations. Mark performed site development engineering including, grading, drainage, and access road layout and design. Mr. Heltzer was responsible for obtaining local governmental approval for new substation sites and the expansion of existing facilities.

Prior to joining Duke Energy, Mr. Heltzer held a Design Engineering position with Pflum, Klausmeier, and Gehrum (now Edwards and Kelcey), a full service engineering, planning, and architectural company located in Cincinnati, Ohio; and a Project Engineer position with Messer Construction Company, a regional contractor and construction manager.

Mr. Heltzer holds a Bachelor of Science in Civil Engineering with a focus in Structural Engineering and Construction Management from the University of Cincinnati. Mark holds registration as a professional engineer in the State of Ohio.
