Max Lind

Mr. Lind joined DukeNet Communication Services, LLC (“DNCS”) in February 2007 where he currently serves as Manager, Sales and Business Development. Max’s department is responsible for the company’s sales, marketing, business development, customer relations, and site deployment services. Additionally, Max is responsible for the company’s collocation process, corporate lease negotiations, and assisting in all M&A activity. Mr. Lind served an integral role increasing the DNCS tower portfolio to 140 sites in eight states from the 10 initial sites DNCS acquired from Lattice Communications, LLC.

Prior to joining DNCS, Max served as Managing Director, Leasing and Marketing for Lattice Communications, LLC. While at Lattice, Max was responsible for all customer relations, marketing, business development, and negotiation of Master and Site Lease Agreements on Lattice’s existing tower portfolio. Max was also responsible for marketing potential sites on Duke-owned real estate, transmission towers, and utility poles in Ohio, Kentucky, and Indiana on which Lattice held through various development rights agreements. Mr. Lind joined Lattice as a Sales Associate in 2002 assisting the company’s leasing representatives in marketing tower assets to prospective wireless communication tenants. By December of 2003, Max was responsible for the marketing, business development, and leasing of tower assets in the Atlanta, Birmingham, Cincinnati, Columbus, Cleveland, and Detroit markets. In November 2004, Max assumed leasing, marketing, and business development responsibilities for all of Lattice’s markets covering 9 states. Since 2004, Max has successfully negotiated over 30 Master Lease Agreements with wireless carriers, broadcasters, wireless internet service providers, paging companies, government agencies, and utilities.

Mr. Lind holds a Bachelor of Science in Business Administration with a focus in Finance from Ashland University.
