Jeremy D. Ruble

Mr. Ruble joined DukeNet Communication Services, LLC (“DNCS”) in February of 2008 where he serves as Manager for Construction, Operations and Maintenance. Since joining DNCS, Jeremy successfully integrated 114 towers into the existing tower portfolio. Jeremy is also responsible for maintaining FCC and FAA compliance on all DNCS tower sites.

Prior to joining the DNCS team, Jeremy worked for Clearwire Communications assisting in the launch of several Clearwire markets as a Network Deployment Construction Manager. Jeremy managed turnkey construction vendors in the build of WiMAX communication networks in the northeastern United States.

Prior to Clearwire, Jeremy held a Field Construction Manager position for Andrew Corporation located in Raleigh, North Carolina. Jeremy’s responsibilities at Andrew included managing construction activities for commercial carriers, instructing safety procedures to tower climbers, performing site field visits, coordinating third party construction activities, and daily schedule updates to clients.

Jeremy received his Bachelor Degree in Sociology from West Virginia University. Prior to attending West Virginia University, Jeremy spent seven years in the United States Army.
