The future
is in all of our hands.

With Duke Energy's
GoGreen Indiana,
we can make it better.

Duke Energy's GoGreen Indiana. Your chance to preserve what we have for future generations.

Real change happens one person at a time.

You can take an active part in preserving the environment for future generations with our GoGreen Indiana program. With Duke Energy's GoGreen Indiana, you have the opportunity to purchase affordable energy generated from renewable, environmentally friendly sources:

- Wind
- Coal mine methane
- Landfill gas
- Hydroelectric
- Solar
- Biomass generation

How you can help.

As a participant in Duke Energy's GoGreen Indiana program, you can purchase the minimum of two (2) 100 kilowatt-hour (kwh) blocks of green power for only \$4.00 a month, which is added to your energy bill. Beyond this minimum, you can purchase additional 100 kwh blocks of green power for \$2.00 a month. All you have to do is decide how many blocks you want to buy. It's that easy!

Under the program, Duke Energy will obtain energy from environmentally friendly generating sources located within our service area, as they become available. We'll also purchase renewable energy from third parties in the form of renewable energy certificates.

Benefits of Duke Energy's GoGreen Indiana.

- Advances development of renewable, environmentally friendly energy sources.
- Offsets carbon dioxide emissions in the atmosphere.
- Diversifies energy supply and lessens demand for fossil fuel generation.

Making a difference starts right now.

Sign up for Duke Energy's GoGreen Indiana today and, for as little as \$4.00 a month, you can help offset carbon dioxide emissions in the atmosphere and preserve our world for future generations. Simply fill out and return the attached registration form or sign up online at www.duke-energy.com. To enroll by phone, call **1-800-423-5401**.
