Florida BERS/HERS Audit

Availability:

Available throughout the entire territory served by the Company.

Applicable:

To residential customers with single family homes (mobile, manufactured homes excluded). Upon request a certified energy rater will perform an on-site energy inspection on an existing home and provide a rating certificate. New homes with completed Florida Energy Code Whole Building Performance Method A require a review of code calculations to be eligible for a rating certificate.

Schedule of Fees:

* Includes electronic registration fees charged by the RESNET Provider.

Definitions:

Existing home: A completed residential occupancy building for which a certificate of occupancy or equivalent approval for occupancy has been issued.

BERS: The Florida Building Energy-Efficiency Rating System (BERS) is a whole building energy evaluation system established and maintained by RESNET.

HERS: The Home Energy Rating System (HERS), established and maintained by RESNET, measures homes’ energy efficiency.

RESNET: The Residential Energy Services Network (RESNET) is a not-for-profit, membership corporation that is a recognized national standards making body for building energy efficiency rating and certification systems.

Terms of Payment:

The fee shall be payable at the time the rating is completed and delivered.
OPTIONAL LOAD PROFILER ONLINE (LPO) SERVICE

Availability:
Available throughout the entire territory served by the Company, subject to the availability of appropriate metering and meter-related equipment.

Applicable:
To General Service and Standby Service customers with a registered or contract demand of 30 kW or greater (based on most recent twelve (12) months of metered data or, if unavailable, twelve (12) months of actual and/or projected data), as an optional service using a password protected internet-based program that allows a Customer access at any internet-capable location to historic consumption data from the Company’s meter(s) serving the Customer’s account(s).

Schedule of Fees and Charges:
- Initial one-time setup charge: $50.00 per meter
- Initial one-time meter upgrade charge: $88.00 if applicable (see Special Provision 1 below)
- Monthly fee (per meter):
  1. Data updated monthly: $25.00
  2. Data updated weekly: $25.00
  3. Data updated daily: $45.00 (available to customers with a demand greater than 500 kW)

1 The timing of the monthly updates will be based on the availability metered data obtained from the Company's regularly scheduled meter readings.
2 Plus a wireless telecommunications service fee of $24.50 per meter if such service is not otherwise provided to the meter.

Terms of Payment:
The monthly fee will be included on, and payable with, the Customer’s bill for electric service. The initial one-time setup charge and, if applicable, the initial one-time meter upgrade charge (see Special Provision 1 below) must be paid prior to commencement of LPO service.

Special Provisions:
1. The weekly or daily data update options of LPO service require that the standard meter(s) serving a Customer, as determined solely by Company based upon the Customer’s electrical requirements, must be capable of recording consumption data at 15-minute intervals and must be capable of being read remotely. An initial one-time meter upgrade charge (see Schedule of Fees and Charges above) will be made for each standard meter serving the Customer that does not have these capabilities.
OPTIONAL REMOTE ACCESS SERVICE

Availability:
Available throughout the entire territory served by the Company, subject to the availability of appropriate metering and meter-related equipment.

Applicable:
To General Service and Standby Service customers with a contract or registered demand of 30 kW or greater (based on most recent twelve (12) months of metered data or, if unavailable, twelve (12) months of actual and/or projected data), as an optional service that allows a Customer to remotely access and monitor consumption data from the Company’s electric meter(s) serving the Customer’s account(s).

Terms of Payment:
The monthly fee will be included on, and payable with, the Customer’s bill for electric service. The initial one-time setup charge and, if applicable, the initial one-time meter upgrade charge (see Special Provision 1 below) must be paid prior to commencement of Remote Access service.

Special Provisions:

1. Remote Access service requires that the standard meter(s) serving a Customer, as determined solely by Company based upon the Customer’s electrical requirements, must be capable of recording electrical consumption data at 15-minute intervals and must be capable of being read remotely. An initial one-time meter upgrade charge (see Schedule of Fees and Charges above) will be made for each standard meter serving the Customer that does not have these capabilities.

2. The Customer must supply and make available at no cost to the Company a suitable direct-dial telephone communication line connected to the meter, installed to the Company’s specifications, and readily accessible to the Company.

3. The Company will provide passwords and other related information needed by the Customer’s software to access the Customer’s metered consumption data. If the Customer requests additional technical support from the Company to resolve problems with the Customer’s software in accessing or monitoring the consumption data, the Customer shall pay the Company’s reasonable costs for providing such additional technical support.
